

Pentacle's **Financial Urgent Care** program responds to a prevalent need for emergency financial assistance for artists within our community. This program is ideal for artistic entities that have undergone staff changes and/or lack sound financial policies and procedures. To determine what areas require attention, entities will be provided with an initial assessment to create a customized plan outlining what areas of assistance might be necessary to build a strong financial structure.

*We needed to change our financial structure and fundraising strategies on our own.
[Pentacle's] knowledge, patience, professionalism and kindness were crucial
in helping our new organization tackle important hurdles during a very difficult time.*
