

RUBBERBAND

GREEN FUND

2024/ 2025

RUBBERBAND, in collaboration with Pentacle, is launching its Green Fund.

Available for the 24/25 touring season, the Green Fund is an eco-touring initiative that provides a \$2,000 fee subsidy to U.S. presenters who support our efforts in environmentally responsible touring. Presenters who book a performance within two designated windows in Fall 2024 and Spring 2025 will be eligible to receive a Green Fund fee support. Our goal is to reduce our overall carbon footprint by cutting down on transportation between engagements, while bringing awareness to environmental sustainability and illustrating how working **together, we can make a difference.**

The Green Fund is RUBBERBAND's latest endeavor to be more environmentally conscious while continuing to do what we love!

To find out more about our 24/25 Green Fund Touring Windows and Fee Support details, please contact:
